## 80 years of the AVK Group

By Chuong Ngoc Anh

**“80 years ago, AVK was founded by my father, Aage Valdemar Kjær. Back then, AVK was a small workshop located in a small, rented house on Bækkevej in Galten, Denmark. Since then, numerous products have been developed, more factories and companies have been built or acquired and today, AVK consists of more than 100 companies, and we are more than 4,400 employees worldwide. This is an exceptional development that we all can be proud of” - Niels Aage Kjær, CEO and Owner.**

We are almost there ...

The end of 2021. For some it will mark the end of a year that felt meaningful and beautiful. Others will be thinking, “Thank God that’s almost over.” For us at AVK company in Vietnam, it’s a little of both.

80 years is a long journey and it’s worth it. “If you want to go fast, go alone. If you want to go far, go together” – African proverb. We want to wrap up this year by telling you how thankful we are for each and every one of you, our customers, partners and all AVK employees who join us on this amazing journey and contribute to the success of AVK Group nowadays.

## Celebrating 80 years in Vietnam

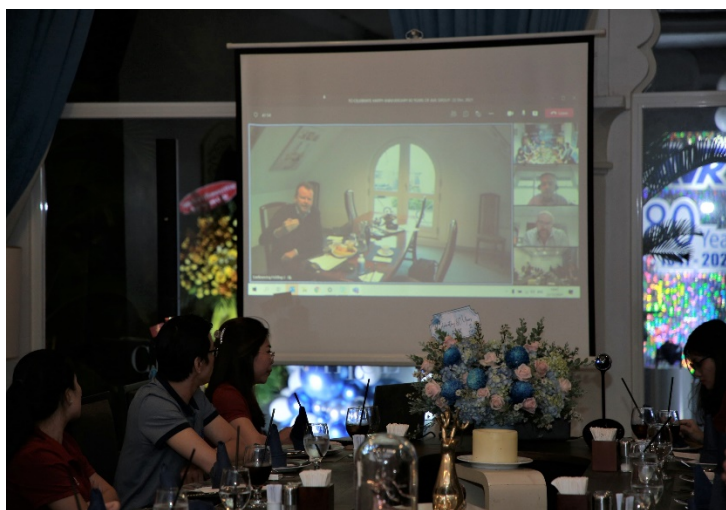

# AVK Vietnam team and our local distributors

**8 decades ago, the machine shop was founded on the values of quality, innovation, reliability, sustainability, and customer service, and which still form the basis of AVK today.**

Whatever you're going through right now, AVK team care about you deeply, and we have your back. We urge you to remember that everything is a phase. And phases change. Sometimes they change more quickly than we ever could've thought.

The New Year is fast approaching, so let's make 2022 the year we can take our business achievement to the next level. We'll be waiting for you, again in 2022.
